

PRESS RELEASE

Note on the Bio-on case

About the Bio-on case, Consob is cooperating actively with the Public Prosecutor's Office of the city of Bologna. The cooperation has taken place since the beginning of the investigations and it was also started due to the impulse of Consob.

In this event, Consob is fully exercising its supervisory powers.

Bio-on is a company listed on the AIM, a multilateral trading platform, established as an unregulated market. AIM as such is not subject to the supervision of Consob, except for the events which are connected to market abuse. Accordingly, Consob had already started, since last summer, all the necessary checks. The investigations are still in progress.
