

**The Memorandum of Understanding (MoU) between Consob and the Guardia di Finanza has been renewed**

The President of Consob, Professor Paolo Savona, and the General Commander of the *Guardia di Finanza*, Gen. C.A. Giuseppe Zafarana, today signed the renewal of the Memorandum of Understanding (MoU) which continues to strengthen cooperation between the two institutions.

At the same time, a conference was held this morning in favor of officers and managers, with the aim of investigating, in the light of technological evolution, the role of Artificial Intelligence in protecting the markets in their respective control activities.

The agreement will make it possible to deal with the risks arising from emerging threats, in relation to which prevention and contrast strategies can be jointly developed, also through the work of the technical tables set up for the study of specific phenomena.

Both authorities also undertake to strengthen the promotion of educational activities related to both professional training and external communication events.
