The black-out of these websites by internet service providers operating on Italian territory is ongoing. For technical reasons, it can take several days for the black-out to come into effect.

Consob draws the attention of savers to the importance of using the utmost diligence in order to make informed investment choices, adopting common sense behaviours, essential to safeguard one’s savings: these include, for websites that offer financial services, checking in advance that the operator with whom you are investing is authorised, and, for offers of financial products, that a prospectus has been published.

To this end, Consob would remind you that on the website www.consob.it there is a section on the homepage, ["Watch for Scams!"](#), providing useful information to warn investors against financially abusive initiatives.
